

# SAFETY DATA SHEET

1. Identification

Product identifier DPD Reagent #1

Product code R-0001

**Recommended use**Use as directed by manufacturer for purposes directly related to water testing.

Recommended restrictions None known

Manufacturer/Importer/Supplier/Distributor information

Manufacturer

Company name Taylor Technologies, Inc.

Address 31 Loveton Circle

Sparks, MD 21152

**United States** 

**Telephone** (410) 472-4340 Monday–Friday, 8:00 a.m.–4:30 p.m.

Website www.taylortechnologies.com

E-mail Not available
Emergency phone number (800) 837-8548

2. Hazard(s) identification

Physical hazards This mixture does not meet the classification criteria according to OSHA HazCom 2012.

**Health hazards** Eye damage/irritation Category 2A

Skin corrosion/irritation Category 2

**Environmental hazards** 

Label elements

Not currently regulated by OSHA. For additional information, refer to section 12 of the SDS.

Signal word Warning

Hazard statement Causes serious eye irritation. Causes skin irritation.

Precautionary statement

**Prevention** Wash skin thoroughly after handling. Wear protective gloves/eye protection/face protection.

Response IF ON SKIN: Wash with plenty of water.

IF SKIN IRRITATION OCCURS: Get medical advice/attention. Take off all contaminated clothing and wash it before reuse.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if

present and easy to do. Continue rinsing.

IF EYE IRRITATION OCCURS: Get medical advice/attention

If eye irritation persists: Get medical advice/attention.

Storage None required

Disposal None required

Hazard(s) not otherwise classified None
Supplemental information None

Material name: DPD Reagent #1; R-0001

# 3. Composition/information on ingredients

#### **Mixtures**

Chemical name	Common name and synonyms	CAS number	%
Deionized water	Dihydrogen oxide	7732-18-5	80–90
Dipotassium phosphate	Dipotassium hydrogenphosphate; Potassium phosphate, dibasic	7758-11-4	5–10
Disodium phosphate	Disodium hydrogenorthophosphate; Sodium phosphate, dibasic	7558-79-4	5–10
Other components below reportable levels			0.01-0.1

### 4. First-aid measures

**Inhalation** Move to fresh air. Give oxygen or artificial respiration if needed. Get medical attention

immediately.

Skin contact Immediately wash skin with soap and water. If symptoms persist or in all cases of concern, seek

medical advice.

**Eye contact** Immediately flush eyes with plenty of water for at least 20 minutes. Remove contact lenses if

present and easy to do. Continue rinsing. If symptoms persist or in all cases of concern, seek

medical advice.

**Ingestion** Treat symptomatically. Never give anything by mouth to a person who is unconscious or is

having convulsions. Do NOT induce vomiting unless directed by physician. If symptoms persist or

in all cases of concern, seek medical advice.

Most important symptoms/effects, acute and delayed

Direct skin contact may cause slight or mild transient irritation. Symptoms may include redness

and itching.

Direct eye contact may cause slight or mild transient irritation. Symptoms may include stinging,

tearing, redness, swelling, and blurred vision.

Inhalation of mists can cause respiratory irritation. Symptoms may include coughing and

breathing difficulties.

Ingestion may cause gastrointestinal irritation, nausea, vomiting, and diarrhea.

Indication of immediate medical attention and special treatment needed

**General information** 

Provide general supportive measures and treat symptomatically.

Ensure medical personnel are aware of the material(s) involved and take precautions to protect

themselves.

### 5. Firefighting measures

Suitable extinguishing media

Unsuitable extinguishing

media

Water fog. Foam. Dry chemical powder. Carbon dioxide .

Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from

the chemical

During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for

firefighters

Firefighting

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Firefighting equipment/instructions

Firefighters should wear full protective gear. Evacuate the area promptly. Fight fire from upwind to avoid exposure to combustion products. Cool containers/tanks with water spray. Do not get water inside container. Move containers from fire area if it can be done without risk. Prevent fire-

extinguishing water from contaminating surface water or the ground water system.

Specific methods
Use standard firefighting procedures and consider the hazards of other involved materials.

No unusual fire or explosion hazards noted

Hazardous combustion

Carbon oxides. Phosphorous oxides. Other irritating fumes and smoke.

products

#### 6. Accidental release measures

Personal precautions, protective equipment, and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during cleanup. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protective equipment, refer to section 8 of the SDS.

Methods and materials for containment and cleaning up Large Spills: Dike the spilled material where this is possible. Stop leak if it can be done without risk. Absorb spillage to prevent material damage. Absorb in vermiculite, dry sand or earth, and place into containers. Prevent entry into waterways, sewer, basements, or confined areas. Following product recovery, flush area with water.

Small Spills: Absorb spillage with noncombustible, absorbent material. Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for reuse. For waste disposal, refer to section 13 of the SDS. Contaminated absorbent material may pose the same hazards as the spilled product. In the event of a spill or accidental release, notify relevant authorities in accordance with all

applicable regulations.

Avoid discharge into drains, watercourses, or onto the ground. **Environmental precautions** 

7. Handling and storage

Precautions for safe handling Do not breathe mist or vapor. Do not get in eyes, on skin, or on clothing. Do not taste or swallow.

> Provide adequate ventilation. Wear appropriate personal protective equipment. For personal protective equipment, refer to section 8 of the SDS. Keep away from incompatibles. Observe

good industrial hygiene practices. Label containers appropriately.

Conditions for safe storage, including any incompatibilities Store locked up. Store in corrosive-resistant container with a corrosive-resistant inner liner. Store in original tightly closed container. Keep only in the original container. Store in a cool, dry place out of direct sunlight. Store away from incompatible materials (refer to section 10 of the SDS).

# 8. Exposure controls/personal protection

Occupational exposure limits

**Biological limit values** 

Appropriate engineering

controls

No occupational exposure limits noted for the ingredient(s) No biological exposure limits noted for the ingredient(s)

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation. or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment

> Eye/face protection Wear safety glasses with side shields (or goggles) and a face shield. Provide an emergency

eyewash fountain and quick-drench shower in the immediate work area.

Skin protection

Hand protection

Wear appropriate chemical-resistant gloves. Advice should be sought from glove suppliers.

Other

Wear appropriate chemical-resistant clothing.

Respiratory protection In case of insufficient ventilation, wear suitable respiratory equipment. Use a NIOSH/MSHA

approved respirator if there is a risk of exposure to fumes at levels exceeding the exposure

limits. Advice should be sought from respiratory protection suppliers.

Thermal hazards When necessary, wear appropriate thermal protective clothing.

General hygiene considerations

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking and/or smoking. Routinely wash work clothing and protective

equipment to remove contamination. Avoid breathing mist or vapor.

#### 9. Physical and chemical properties

**Appearance** 

Physical state Liquid Form Liquid

Color Clear colorless or nearly colorless

Odor Odorless

Odor threshold Not available pН 10

Not available Melting point/freezing point Initial boiling point and boiling 212°F (100°C)

range

Flash point Not applicable (does not burn)

**Evaporation rate** Not available Flammability (solid, gas) Not applicable

Upper/lower flammability or

explosive limits

Flammability limit, Not applicable

lower (%)

Flammability limit,

upper (%)

Not applicable

Explosive limit, lower (%)

Not applicable

**Explosive limit,** 

Not applicable

upper (%)

Vapor pressure 17 mm Hg Vapor density 0.64 Relative density 1.24 g/cm<sup>3</sup>

Solubility(ies)

Solubility (water) Soluble in all proportions

Partition coefficient

(n-octanol/water)

Not available

**Auto-ignition temperature** Not applicable **Decomposition temperature** Not available Viscosity Not available

Other information

**Explosive properties** Not applicable Oxidizing properties Not applicable

Percent volatile 84% Specific gravity 1.24

# 10. Stability and reactivity

Reactivity This product is stable and nonreactive under normal conditions of use, storage, and transport.

**Chemical stability** Material is stable under normal conditions.

Possibility of hazardous

reactions

No dangerous reaction known under conditions of normal use

Conditions to avoid Contact with incompatible materials. Do not use in areas without adequate ventilation.

Incompatible materials Metal compounds. Oxidizing agents. Strong acids.

Hazardous decomposition

products

None known. For hazardous combustion products, refer to section 5 of the SDS.

# 11. Toxicological information

Information on likely routes of exposure

Inhalation May cause irritation to the respiratory system Skin contact May cause slight or mild transient irritation

Eye contact May cause severe irritation

Ingestion May cause irritation, nausea, vomiting, and diarrhea

Most important

symptoms/effects, acute

and delayed

Direct skin contact may cause slight or mild transient irritation. Symptoms may include redness

and itching.

Direct eye contact may cause slight or mild transient irritation. Symptoms may include stinging,

tearing, redness, swelling, and blurred vision.

Inhalation of mists can cause respiratory irritation. Symptoms may include coughing and

breathing difficulties.

Ingestion may cause gastrointestinal irritation, nausea, vomiting, and diarrhea.

Acute toxicity This product is not classified as an acute toxicity hazard. See below for individual ingredient

acute toxicity data.

Components Species Test Results

Disodium phosphate (CAS 7558-79-4)

Acute

Dermal

LD<sub>50</sub> Rat Not available

Inhalation

LC<sub>50</sub> Rat Not available

Oral

 $LD_{50}$  Rat 17000 mg/kg

Deionized water (CAS 7732-18-5)

**Acute** 

Dermal

LD<sub>50</sub> Rabbit Not available

Inhalation

LC<sub>50</sub> Rat Not available

Oral

 $LD_{50}$  Rat >89840 mg/kg

Skin corrosion/irritation Causes skin irritation

Serious eye damage/eye

irritation

Causes severe eye irritation

**Respiratory sensitization** Not expected to be a respiratory sensitizer

Skin sensitization Not expected to be a skin sensitizer

Germ cell mutagenicity Not expected to be mutagenic

Carcinogenicity This product is not considered to be a carcinogen by IARC, NTP, OSHA, or U.S. ACGIH.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1096)

Not regulated

**Reproductive toxicity**This product is not expected to cause reproductive or developmental effects.

Specific target organ toxicity,

single exposure

Not classified as a specific target organ toxicity – single exposure

Specific target organ toxicity,

repeated exposure

Not classified as a specific target organ toxicity – repeated exposure

Aspiration toxicity Not expected to be an aspiration hazard

**Chronic effects** Frequent or prolonged contact may dry the skin, leading to discomfort and dermatitis.

12. Ecological information

**Ecotoxicity** This product is not classified as environmentally hazardous; however, this does not exclude the

possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Components Species Test Results

Disodium phosphate (CAS 7558-79-4) - Aquatic

Acute

Algae

EC<sub>50</sub> Green algae (Desmodesmus subspicatus) >100 mg/L, 72 hours

Crustacea

EC<sub>50</sub> Water flea (*Daphnia magna*) >100 mg/L, 48 hours

Fish

LC<sub>50</sub> Rainbow trout (Oncorhynchus mykiss) >100 mg/L, 96 hours

Chronic

Algae

NOEC Green algae (Desmodesmus subspicatus) >100 mg/L, 72 hours

Persistence and degradability Not available Bioaccumulative potential Not available

Mobility in soil High water solubility indicates a high mobility in soil.

Other adverse effects No other adverse environmental effects (e.g., ozone depletion, photochemical ozone creation

potential, endocrine disruption, global warming potential) are expected from this component.

# 13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of

contents/container in accordance with local/regional/national/international regulations.

**Local disposal regulations** Dispose in accordance with all applicable regulations.

Hazardous waste code The waste code should be assigned in discussion with the user, the producer, and the waste

disposal company.

Waste from residues/unused

products

Empty containers or liners may retain some product residues. This material and its container

must be disposed of in a safe manner (refer to Disposal instructions).

**Contaminated packaging** Empty containers should be taken to an approved waste-handling site for recycling or disposal.

Since emptied containers may retain product residue, follow label warnings even after container

is emptied.

# 14. Transportation information

DOT

Not regulated as dangerous goods

IATA

Not regulated as dangerous goods

**IMDG** 

Not regulated as dangerous goods

Transport in bulk according to

Annex II of MARPOL 73/78 and

the IBC Code

Not available

# 15. Regulatory information

U.S. federal regulations This product is a "Hazardous Chemical" as defined by OSHA Hazard Communication Standard,

29 CFR 1910.1200.

All components are on the U.S. EPA TSCA Inventory list.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated

CERCLA Hazardous Substance (40 CFR 302.4)

Disodium phosphate (CAS 7558-79-4)

SARA 304 Emergency Release Notification

Not regulated

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1096)

Not regulated

Superfund Amendments and Reauthorization Act of 1986 (SARA)

**Hazard categories** Immediate hazard – yes

Delayed hazard – no Fire hazard – no Pressure hazard – no Reactivity hazard – no

SARA 302 Extremely Hazardous Substance

Not regulated

SARA 311/312 Hazardous Chemical

Listed

SARA 313 (TRI reporting)

Not regulated

#### Other federal regulations

# Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAP)

Not regulated

# Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

Not regulated

# Safe Drinking Water Act (SDWA)

Not regulated

### U.S. state regulations

#### California Controlled Substances. CA Department of Justice (California Health and Safety Code Section 11100)

Not regulated

### Massachusetts Right-to-Know Act

Disodium phosphate (CAS 7558-79-4)

# New Jersey Worker and Community Right-to-Know Act

Disodium phosphate (CAS 7558-79-4)

### Pennsylvania Worker and Community Right-to-Know Act

Disodium phosphate (CAS 7558-79-4)

### Rhode Island Right-to-Know Act

Disodium phosphate (CAS 7558-79-4)

### **California Proposition 65**

California Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): This material is not known to contain any chemicals currently listed as carcinogens or reproductive toxins.

#### International inventories

Country(ies) or region	Inventory name	On inventory
		(yes/no)*
Australia	Australian Inventory of Chemical Substances (AICS)	yes
Canada	Domestic Substances List (DSL)	yes
Canada	Non-Domestic Substances List (NDSL)	no
China	Inventory of Existing Chemical Substances Produced or Imported in China (IECSC) $$	yes
Europe	European Inventory of Existing Commercial Chemical Substances (EINECS)	yes
Europe	European List of Notified Chemical Substances (ELINCS)	no
Japan	Existing and New Chemical Substances (ENCS)	yes
Korea	Existing Chemicals List (ECL)	yes
New Zealand	New Zealand Inventory of Chemicals (NZIoC)	yes
Philippines	Philippine Inventory of Chemicals and Chemical Substances (PICCS)	yes
United States & Puerto Rico	Toxic Substances Control Act (TSCA)	yes

<sup>\*</sup>A "yes" indicates that all components of this product comply with the inventory requirements administered by the governing country(ies).
